INTRODUCTION and INSTRUCTIONS

You have received this Catalogue as a blind/reading-impaired member of Christian Services for the Blind and Hearing Impaired. It includes denominational and general Christian audio books and resources for the benefit of its members only. The actual library content is available to all VAILS members.

In recent years, Vision Australia has changed the way we access the audio books. Once distributed via a dedicated 3G DAISY player (pictured), now is only available via the Vision Australia APP which is available from the Apple APP store or GooglePlay. Simply search Vision Australia APP and you will find the option to download the appropriate version. You are looking for the logo below.

Once you have downloaded the APP to your device, you can use the search function in the APP to search the titles of the books found in the catalogue below.

You can also access the library via the Vision Australia webpage: visionaustralia.org

The library is comprised of some 40,000 secular books—audio and braille—and 400+ newspapers, magazines and podcasts.

As a library member you can request access to the site for online magazines and journals. For more information on Vision Australia's

services call their helpline on 1300 84 74 66 or email info@visionaustralia.org.

If you have an Internet connection and are able to use it, go to the VAILS website <https://i-accessonline.visionaustralia.org/> to search and download directly to your iPad or Android device or smartphone, using the VA Connect app. You can download the app from this page: <https://www.visionaustralia.org/services/library/access>

Notes:

1. The Catalogue contains more than 600 books. Most of the books are of a spiritual/devotional nature, and as such are nonfiction. However, a few are not, but because they are based on good morals, they make enjoyable reading.
2. We have classified the books as best we can as to their interest category. This is subjective and given as a guide only.
3. We try to add new books each year, mostly read by Australian/NZ narrators. However, to give wider variety and access to new books, some are sourced from our affiliated service in the USA, the Christian Record Service (CRS), and are thus American-narrated. CRS also provides a range of Braille resources, which is available to CSFBHI members at no cost.
4. Remember, you will be receiving copyrighted material for personal use, which by law you are not allowed to share. If you share or reproduce the books you may be excluded from the library. Both you and the library are bound by the rules of Australian copyright law.
5. This Catalogue is available online in PDF format on the CSFBHI website (under Resources), which is superficially searchable. Its audio content also forms part of the database for online searching, direct ordering and immediate download.
