## Notes:

1. The Catalogue contains more than 600 books. It is impossible to present the complete content of each book. Only a synopsis is provided. It also contains the length of the book in hours and minutes.
2. We have classified the books as best we can as to their interest category, suitability for religions and age group. This is subjective and given as a guide only.
3. Most of the books are of a spiritual/devotional nature, and as such are nonfiction. However, a few are not. But because they are based on good morals, they make enjoyable reading, teaching good values, so we have chosen to include them.
4. We try to add new books each year, mostly read by Australian/ NZ narrators. However, to give wider variety and access to new books, some are sourced from our affiliated service in the USA, the Christian Record Service (CRS), and are thus American- narrated. CRS also provides a range of Braille resources, which is available to CSFBHI members at no cost.
5. Remember, you will be receiving copyrighted material for personal use, which by law you are not allowed to share. If you share or reproduce the books you may be excluded from the library. Both you and the library are bound by the rules of Australian copyright law.
6. This Catalogue is available online in PDF format on the CSFBHI website (under Resources), which is superficially searchable. Its audio content also forms part of the database for online searching, direct ordering and immediate download.
